

# Upper Rum River Watershed Management Organization (URRWMO) Watershed Management Plan

---

## Stormwater Standards

---

*The following standards were recommended by a Technical Advisory Committee (TAC) including representation from each URRWMO member city. Each member community must update their local water plan and ordinances for consistency with this amendment within two years of the effective date.*

Date of URRWMO Board Approval of Stormwater Standards: January 5, 2021

Date of Amendment to URRWMO Plan: May 4, 2021

---

The 2009 URRWMO Stormwater Infiltration Standards are hereby rescinded. URRWMO communities must comply with the MN Municipal Separate Storm Sewer System (MS4) permit minimum control measures 4 (construction site stormwater runoff control) and 5 (post-construction stormwater management).
